Welcome to the submission site for  
Open Heart

To begin, log in with your user ID and password.

If you are unsure about whether or not you have an account, or have forgotten your password, go to the [Reset Password](#) screen.

2. Efter du loggat in med Orcid kommer du till en sida där du måste registrera dig på själva tidskriften, I detta exempel har jag valt tidskriften Open heart från BMJ. Efter registreringen är ditt ORcid-konto och kontot på tidskriften länkade så du endast behöver logga in med Orcid-konto nästa gång.  
Här hittar du en lista över alla BMJ-tidskrifter: <https://journals.bmj.com/content/journals>
3. Välj Västra götalandregionen som institution och under Department Sahlgrenska universitetssjukhuset, som Secondary address väljer du t.ex. Sahlgrenska akademien om du har anställning och koppling dit. I adress-fältet skriv in din egen adress.

## Step 2: File Upload

Upload files for your manuscript (5 files maximum at a time). The *main document*, table and figure files will be combined into a single PDF and supplementary files for review will be made available for peer review. The main document should contain your main text, references and editable tables. For more information on manuscript preparation please click [here](#).

If you are submitting a revision, please review the files uploaded and include only the latest set of files. The main document should not be a marked up version. A version with tracked changes should be uploaded as 'Revised manuscript marked copy'.

**If you have updated a file, please delete the original version and upload the revised file.** To designate the order in which your files appear, use the dropdowns in the "order" column below. View your uploaded files by clicking on HTML or PDF.

**Please note:** Authors are encouraged to use the relevant research reporting guidelines for the study type provided by the EQUATOR Network. This will ensure that you provide enough information for editors, peer reviewers and readers to understand how the research was performed and to judge whether the findings are likely to be reliable

The key reporting guidelines are:

- Randomised controlled trials (RCTs): CONSORT guidelines
- Systematic reviews and meta-analyses: PRISMA guidelines and MOOSE guidelines
- Observational studies in epidemiology: STROBE guidelines and MOOSE guidelines
- Diagnostic accuracy studies: STARD guidelines
- Quality improvement studies: SQUIRE guidelines

Research checklists should be uploaded using the File Designation "Research Checklist". [Read More ...](#)

Author names, institutions and addresses will be taken from the fields you have filled in, so you must ensure that these are up to date and accurate.

**From the 28th of November 2018 a majority of BMJ Journals will be mandating ORCID iDs for all submitting authors at the time of article submission.** Co-authors and reviewers are strongly encouraged to also connect their ScholarOne accounts to ORCID. We strongly believe that the increased use and integration of ORCID iDs will be beneficial for the whole research community. For those who do not currently have an ID they will be required to register but this is free and takes a matter of seconds. Please find more information about ORCID and BMJ's policy on our [Author Hub](#).
